The Work Desk Meeting table comes in three sizes; it's a very versatile piece for reception or breakout areas, for hosting informal meetings or for a coffee.

The work desk Tall is another popular meeting solution. Pair it with one of our barstools or source separately.

In 2020 we introduced Work Series Storage, a comprehensive range of low, tall, open or closed storage solutions. Available in different lacquered and wood finishes to match or complement the work tables.

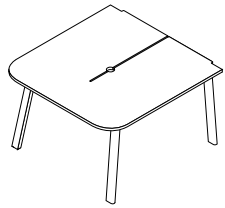

We are happy to accommodate custom solutions. Do you require an under table drawer unit, a custom handle, a shelving solution, or prefer a square to a round corner?
